If you're interested in Internet marketing or building a successful business FAST you'll love this interview with Ian del Carmen.

Ian went from literally having nothing... to running a fully-fledged Internet business employing staff in less than a year! And he did it in a country where most people don't know what Internet marketing is!

In this interview you'll also discover:

- Why Ian quit the film and television industry and started an Internet marketing business.
- How Ian was able to go from being a nobody, living in a country where very few people are involved in Internet marketing (the Philippines), to launching a hugely successful web business, and being on first-name terms with some of the biggest names in Internet marketing... in **less than a year**.
- Ian's "contrarian" view on list-building... and how he's been able to keep growing his list of subscribers without getting loads of "freebie" seekers.
- The "it" factor that has powered Ian's success... This may surprise you, but Ian does **something that many Internet gurus avoid like the plague**... yet it's one of the "secrets" to his success.
- How Ian believes the Internet will evolve and his plans for taking advantage of that evolution.
- Why Joel Christopher, the Master List Builder, dubbed Ian the "**fireball**".
- And more!
